Gift Box Buying Checklist

Four checks to make before you order ready-stock or custom gift boxes.

1 Measure the usable inside space

Arrange the full set as it will be packed, including the insert and filler. Measure the usable internal length, width, and height required for that arrangement, and allow room for the lid to close.

Required internal L × W × H: _____

2 Check the minimum for each option

List every size, color, or style you want. Verify the minimum order quantity for each selected option on its product page or written quote.

Selected options and quantities: _____

3 Prepare artwork and approve the proof

Prepare your logo file. Check its placement, printed size, and finish on the digital proof before approving the artwork.

Placement, dimensions, and finish: _____

4 Work back from your required arrival date

Allow for carrier transit after dispatch, stock preparation or printing before dispatch, proof approval when needed, and a buffer. Ask for the schedule for your exact item and order.

Required arrival date and destination: _____
